Knuth and may more.*

The CD contains 14 songs, of which a few covers, and own written songs.

The CD has a sound like traditional country music should sound. The CD opens with the CD title "What Comes Next" written by Jerry Cruchfield.

Song No. 2 Whoo M'am Thanks Again, which was written by Hermann, is such a wonderfully traditional song with traditional instru-

ments. The song opens with "old time guitar picking" which is followed by vocals. Fiddel, piano, padal-steel and picking on the banjo should not be missing in this song.

Hermann Lammers Meyer from Aschendorf, Germany has been making traditional country music for almost 50 years. The music of Her-mann is one of the 15 most played country singers in the radio lists of Eu-ropa.

Don't Pass Me By, no. 6 on the CD is a wonderful "Love Song" with a beautiful compelling melody line. Which starts with banjo picking, with continuous pad steel. It is a perfect cover of the original song by Ringo Starr - The Beatles. Yes, the cover is much better than the original version.

The CD was recorded in Texas by Bill Green BGM Studio, San Antonio TX. Mixed by John Macy-Macy Sound Studios Denver CO. Masterd by Mark Fuller-mark Fuller mastering Sebastopol CA.
